positively and significantly affected on experience value and alumni loyalty. Students who gain experience value from lectures could interact and could active on campus. High interaction among students, lectures, and campus showed a strong co-creation level and better experience value, impacting alumni loyalty to recommend and care about their alma mater. There should be provided space to build the campus through a strong alumni engagement. The more experience students have on campus, the more they care about their alma mater.

**Originality** – This study observed the experience of alumni who were more objective in providing their perceptions because they were no problem of interest. Some researchers used students loyalty measure that was less objective because there still an interest as a student.
